

## UP-GRADE – ASSIST-CARD “SPORTS & ADVENTURE”

### SERVICE CONDITIONS

The present service improves ASSIST-CARD obligations described in the General and Particular Conditions of the ASSIST-CARD card previously chosen and purchased by you.

Clause C.5.12.7 “*Sports (professional or amateur)*” of the General and Particular Conditions mentioned states that the system of free assistance excludes: “*The assistance that may occur as a consequence of training, practice or active participation in any kind of sport competition. Furthermore, it also excludes the assistance that may occur as a consequence of the practice of dangerous or high risk sports, including, but not limiting: motorcycling, car-racing, boxing, polo, water-skiing, jet-skiing, wave-runner, snow motorcycling, 4-wheeler, all-terrain vehicles, skating, parasailing, scuba diving, hang gliding, surfing, mountaineering, windsurfing, etc. Besides, it excludes assistance that may occur as a consequence of the practice of skiing, snowboard and/or other winter sports not mentioned in the previous paragraph out of ruled and authorized ski runs.*”

The SPORTS & ADVENTURES up-grade improves the preceding clause as ASSIST-CARD is in charge of the expenses generated by the above mentioned assistance **but only to the top that you have chosen and agreed for this benefit**. It is explicitly stated that this benefit is valid **solely and exclusively for the amateur practice of sports**, and under no circumstance for their professional practice. Finally it is made clear that this additional benefit does not cover the practice of mountaineering, motocross and/or boxing, being these sports absolutely excluded from ASSIST-CARD free assistance service.

The choice and acquisition of the present “UP-GRADE SPORTS & ADVENTURE” benefit implies the knowledge and acceptance on the part of the card holder of the terms and exclusions of the service stipulated in the present contracting conditions.
